Dear Ms. Tarchuk:

I have the privilege to submit to you my report on the 2004 Provincial General Enumeration and the November 22, 2004 Provincial General Election, in accordance with Section 4(3) of the *Election Act*.

An overview of the Senate Nominee Election, held in conjunction with the Provincial General Election, has also been included. Additional detail will be provided in "The Report of the Chief Electoral Officer on the 2004 Senate Nominee Election".

Should you require any additional information or clarification on anything contained in the Report, I would be pleased to respond.

Sincerely,

O. Brian Fjeldheim
Chief Electoral Officer

2004 PROVINCIAL GENERAL ENUMERATION

Overview

The Register of Electors is an electronic database containing elector and address information, which is continuously updated and used to prepare Lists of Electors, when required. Originally established in 1996, it has been updated since the 2001 General Election through elector-initiated requests and use of information provided by Alberta Vital Statistics, which facilitated the deletion of deceased electors from the Register.

It was further updated through a door-to-door enumeration in the period from August 28 to September 12, 2004 under the authority of Section 13(2)(a) of the *Election Act*. The activity was conducted in order to provide an updated List of Electors to the registered political parties in the fourth year following the 2001 General Election, in accordance with Section 18(1)(b) of the *Election Act*. Lists of Electors were made available in both paper and electronic format.

Additional sources of electronic information are being evaluated for their potential to assist in updating the Register on an ongoing basis.

Mapping Activities

Elector information was collected based on the boundaries described in the *Electoral Divisions Act*. The *Act* was amended following the independent review of the 2002/2003 Alberta Electoral Boundaries Commission and the May 2003 acceptance of the revised electoral division boundaries by the Legislative Assembly.

The new electoral division boundaries described by the *Act* necessitated a major review and readjustment of Alberta's electoral map. Almost all electoral division boundaries were changed from those in effect at the 2001 General Election. Following training in November 2003, Provincial Returning Officers received their new electoral division maps. They reviewed over 5,000 polling subdivisions and revised them, where necessary. The majority of polling subdivision boundaries had to be revised due to changed electoral division boundaries and growth within the province. Polling subdivision boundaries were established to best accommodate the majority of electors on Polling Day. Issues such as clarity, accessibility, distances, normal travel patterns, and polling place potential were considered.

Provincial Returning Officers were also responsible for the review, and necessary revision, of Lists of Electors generated by Elections Alberta on the new polling subdivision boundaries. This was a major challenge due to significant growth and also due to the use of mailing addresses in many rural communities. Elections Alberta will be better positioned to address these two major challenges in the future, through the staged acquisition of newly created civic addresses and collection of legal land descriptions, or other geographic descriptions, in rural areas.

The map review concluded in March 2004. At that time, revised polling subdivision maps and Lists of Electors based on the reconfigured boundaries were provided to registered political parties in accordance with Section 18(1)(c) of the *Election Act*.

Conduct of the Enumeration

Register of Electors information was supplied to enumerators on pre-printed enumeration records, for use in confirming, revising, deleting, and adding elector information. In new areas and other situations where previous elector information was not contained in the Register, civic address information was pre-printed onto the enumeration records. This reduced the requirement for information collection and helped to ensure thorough coverage.

Enumerators carried a translation sheet which explained the purpose of their visit in thirteen different languages. This proved extremely useful in overcoming language barriers to collect information.

The goal in the enumeration was to make contact and obtain information from electors in 95% of the residences across the province. Results fell short of this goal. Although it was achieved in many electoral divisions, those with higher no contact rates produced an average provincial contact rate of 91%. Enumerators contacted each residence at least three times, if necessary. Electors who were not contacted were left a "We Missed You" card asking them to contact the enumerator to arrange for inclusion in the Register of Electors. A legislative change allowed electors to confirm or update existing information via telephone, within certain parameters. This was particularly beneficial in rural areas and reduced the time and costs associated with repeat visits by enumerators.

Electors who provided information were left a "Thank You" card which advised them of the purpose of the data collection, including the possibility that their information could be shared with municipal and federal electoral agencies for electoral purposes. The cards also provided the Returning Officer's name and telephone number to give electors the opportunity to ask questions or voice concerns.

Some electors did not provide information to enumerators or to the Returning Officer during the revisions day associated with the enumeration. The "We Missed You" card left at the door clearly explained that their information would not appear in the Register nor on subsequent Lists of Electors, until the elector provided the necessary information.

This decision was sound. It was determined that all information for only one in three residences was confirmed without any revision being necessary. It can be predicted that including the names of over 246,000 electors that could not be contacted, instead of deleting them, would have resulted in the inclusion of approximately 164,000 incorrect entries in the Register and on Lists of Electors.

Challenges

Returning Officers were collectively responsible to recruit, train and manage over 5,400 enumerators. Recruitment in some areas was particularly challenging, necessitating a great deal of creativity on the part of Returning Officers. The challenge was ably addressed using the standardized procedures and training prepared by Elections Alberta.

Ensuring the personal security of both electors and enumerators was another challenge. Each enumerator was provided with unique identification, which was designed to deter unauthorized duplication and to be easily visible to electors. Enumerators authorized a security clearance check through Alberta Justice and Attorney General in the interest of elector protection. Enumerators were provided with specific training on managing the risks while working alone in the community and were instructed to avoid potential high-risk situations.

Another challenge arose from the difficulty of contacting electors, sometimes because of busy schedules and living environments. Some housing developments, including condominiums, apartments and gated communities, have a responsibility to restrict access to residents. Although Section 29 of the *Election Act* authorizes enumerator access, it can be difficult to arrange for this access with facility managers on a timely basis. Elections Alberta worked with condominium and apartment associations prior to the enumeration to facilitate this access.

In addition, multi-unit residential liaison officers were hired to develop access arrangements with building managers, where necessary. Retired members of the Royal Canadian Mounted Police facilitated enumerator access to meet the requirements of the legislation while respecting the concerns of residents and building managers.

One electoral division was illustrative of this difficulty. Completion of the enumeration revealed a no contact rate of 26.4%; that is, enumerators contacted a resident in only about three out of four of the known residences in that area.

Elector data was obtained from Elections Canada, as authorized by Section 13(2)(b) of the *Election Act*, to bring the coverage for Calgary-Buffalo to an acceptable level, as presented on page 13. This valuable partnership will be expanded in the future. Due to time constraints, data could not be integrated for the other two electoral divisions that had a no contact rate higher than 20%. Although, based on the Calgary-Buffalo experience, this would have been a worthwhile exercise to reduce the number of no contacts and achieve a more complete List of Electors on Polling Day.

The enumeration process is a very effective method to collect timely, accurate elector information. The door-to-door visits ensure that no one is overlooked. At the same time, inherent difficulties associated with a door-to-door enumeration are increasing as time goes on. It becomes more challenging with each enumeration to recruit a sufficient number of enumerators and to obtain information from electors. Many electors are reluctant to provide information in spite of the advertising that takes place and the enhanced identification carried by enumerators.

Alternative methods for elector data collection are being examined. Those methods will include electronic updates from available sources, which are currently being assessed for currency and compatibility. It may be necessary to revise expectations for coverage, since it may be difficult to replicate the 97.4% inclusion rate achieved through the door-to-door enumeration process.

Timeline

Returning Officers received training in June 2004. Prior to that, they had contacted local constituency associations in May for names of potential enumerators. They recruited staff following their training session using other sources. Returning Officers showed a great deal of creativity in recruitment: local service agencies, social clubs, community groups, employee associations, religious organizations, and former enumeration/election/census workers were contacted. Returning Officers with a surplus of personnel provided names to their colleagues to ensure a full staff complement in all electoral divisions.

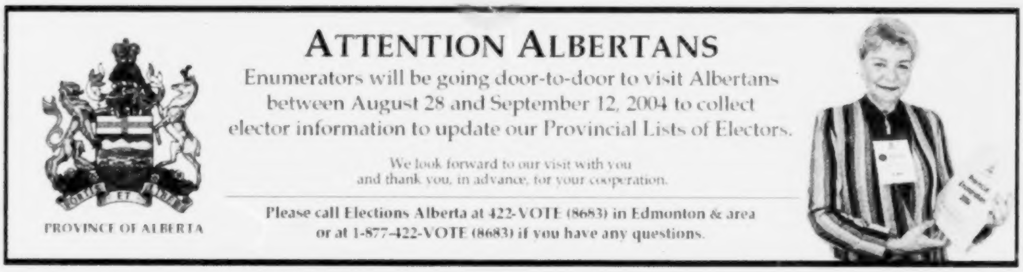
Over 5,400 enumerators visited approximately one million residences in the province between August 28 and September 12, 2004. The enumeration was not extended in any electoral divisions, due to the immediate need for updated Lists of Electors.

Electors who were missed during the enumeration had a couple of opportunities to be added to the Register of Electors. They were able to contact the enumerator responsible for their area or could contact the Returning Officer directly to be added to the Register on September 18, 2004, the revisions date. In spite of the tight timeline, every effort was made to include all interested electors in the Register to ensure their names would appear on subsequent Lists of Electors prior to the election.

Data entry of the updated elector information commenced immediately following the conclusion of the enumeration. Approximately 600 data entry operators used a secure Internet connection to update the Register of Electors from the hard-copy enumeration records over a ten-day period, from September 14 to 24, 2004. Enumerators and Returning Officers reviewed the data input to ensure that all elector information had been entered accurately and consistently.

Advertising

Advertisements were placed in newspapers of general circulation to inform electors of the enumeration. Weekly advertisements included information on enumeration timelines and the purpose of the data collection. The advertisements included a telephone number for electors to contact with questions or concerns. Toll-free access was available during the enumeration to assist electors outside of the Edmonton calling area.



ATTENTION ALBERTANS

Enumerators will be going door-to-door to visit Albertans between August 28 and September 12, 2004 to collect elector information to update our Provincial Lists of Electors.

We look forward to our visit with you and thank you, in advance, for your cooperation.

Please call Elections Alberta at 422-VOTE (8683) in Edmonton & area or at 1-877-422-VOTE (8683) if you have any questions.

PROVINCE OF ALBERTA

Key information was also made available on the Elections Alberta website. Returning Officers' contact information was web-posted to provide electors with their local contact.

Enumeration Expenses – Fees and Associated Costs

The following information directly relates to the numbered columns presented on pages 7 and 8 in the table entitled 2004 General Enumeration Cost Summary by Electoral Division:

Returning Officers

1. Honorarium, basic fee, fee payment for names recorded on the List of Electors, attendance at the Chief Electoral Officer's training sessions, training of enumeration officials, revisions to maps and employer contributions.

2. Meals, accommodation and travel.

3. Office and equipment rental, training space rental, telephone expenses, map preparation, printing and miscellaneous costs.

4. Support staff and travel.

Enumerators

5. Basic and instructional fee.

6. Fee payment for names and addresses recorded on the Lists of Electors.

7. Travel (based on the rate of 38 cents per kilometre).

Data Entry Operators

8. Fee payment for names and addresses recorded on the Lists of Electors and instruction fee.

9. Expense for use of personal computers, printing and the Internet.

Enumeration Fees and Expenses Regulation, August 2004 (Extract)

A **Returning Officer** may be paid the following:

a) a monthly honorarium of $115;
b) a fee of $1,465 for each year in which the register of electors is updated through an enumeration plus 15¢ per name included on the register of electors;
c) a fee of $185 per day for each day of attendance at a sitting to revise the register of electors prepared following an enumeration;
d) a fee of $170 per day for each day of attendance at training sessions called by the Chief Electoral Officer;
e) a fee of $370 for training staff to conduct an enumeration;
f) when required to travel on official business, the rates prescribed in the *Public Service Subsistence, Travel and Moving Expenses Regulation* made under the *Public Service Act*;
g) a supplemental fee of $20 for every 100 kilometres, or portion thereof, traveled in excess of the first 100 kilometres of travel during an enumeration or an election;
h) if a Returning Officer
    i. elects to use the Returning Officer's personal residence as an office, a maximum rental of $450 per month with a rental period not exceeding 2 months, unless otherwise approved by the Chief Electoral Officer, or
    ii. elects to use commercial space as an office, the most economical rate available with a rental period not exceeding 2 months, unless otherwise approved by the Chief Electoral Officer;
i) a fee of $675 for revisions to the electoral division map showing subdivision boundaries and to the register of electors when directed by the Chief Electoral Officer; and
j) an additional fee of $675 for the review of the electoral division map and register of electors performed after an Electoral Boundaries Commission Report.

An **Enumerator** may be paid the following:

a) a basic fee of $115;
b) a fee of 56¢ per name included in the register of electors;
c) a fee of $50 for attending a class of instruction;
d) a fee of $30 for verifying the accuracy of the revised register of electors;
e) when required to travel on official business, the rates prescribed in the *Public Service Subsistence, Travel and Moving Expenses Regulation*; and
f) a supplemental fee of $10 for every 100 kilometres, or portion thereof, traveled in excess of the first 100 kilometres of travel during an enumeration.

A **Data Entry Operator** may be paid the following:

a) a fee of $17 for every complete poll entered;
b) a fee of 14¢ per name included in the list of electors for specific polling subdivisions;
c) a fee of $30 for a self-training session; and
d) when required to travel on official business, the rates prescribed in the *Public Service Subsistence, Travel and Moving Expenses Regulation*.

The following additional fees and expenses may be paid:

a) telephone installation, service and toll charges at prevailing rates, on submission of the invoices or receipts for the installation, service and toll charges;
b) support staff, including but not limited to messengers, special constables and interpreters, at a rate approved by the Chief Electoral Officer;
c) printing costs for lists of electors, proclamations, ballots, forms and any other printing or photocopying required by a returning officer, at the most economical commercial rate available; and
d) costs for the collection and the data entry of address based information at a rate approved by the Chief Electoral Officer.

If, in the opinion of the Chief Electoral Officer, an emergency exists, or circumstances for which no adequate provision of fees exists, the Chief electoral Officer may fix the appropriate fee for the situation.

> *Note:* Two fees were deemed to be required by the Chief Electoral Officer under this section during the 2004 General Enumeration:
>
> i. a fee of 25¢ per new address collected in which no electors were resident; and
> ii. a Data Entry Operator fee of $15 per poll for adding new addresses in which no electors were resident.

The fees under this Regulation may be prorated at the discretion of the Chief Electoral Officer for an enumeration of only part of an electoral division.

Points of Interest

Approximately 640,000 electors indicated that their address and personal information held in the Register was correct and could be confirmed without any changes. In effect, only one-third of overall Register data was still correct after the four years between the previous enumeration and the 2004 Provincial General Enumeration.

124,377 electors remained at the same address but indicated that changes were needed to their personal information. Enumerators recorded changes to names, dates of birth, telephone numbers, and genders.

644,572 electors were deleted from the address at which they were recorded in the Register.

471,257 electors were added to the Register or were recorded at a new address. They included electors who had moved, turned eighteen, attained the citizenship or residency requirements, and those who had been missed during the 2000 Confirmation Process.

250,959 new residential addresses were added to the Register in the transition to an address-based Register. Addresses without electors were collected for the first time to prepare for future data collection.

The October 2004 Lists of Electors had grown by 6.7% between August 2000 and August 2004. That exceeds the overall population growth of 6.5% for that period, indicating that Register quality continues to improve.

It is essential to collect basic personal information to identify electors in order to revise the Register electronically. This information is provided by electors on an optional basis. Following the conclusion of the enumeration, 83.4% of electors had provided dates of birth and 95.6% had provided gender information. This information is used internally for administrative purposes, and does not appear on Lists of Electors. Appropriate safeguards have been established to ensure that private information is kept strictly confidential.

Telephone numbers, which are also provided on an optional basis, were provided for 85.7% of electors. This information is very useful in verification of Register information, especially where the distance between residences is significant.

It is interesting to note that the percentage of optional information provided has increased in all areas (birth dates, genders, telephone numbers) since 2000 when elector data was last confirmed through a door-to-door process. This may be due to the increased awareness and acceptance of the Permanent Register that has developed over time, in response to advertising and education efforts.

Various Register statistics, by electoral division, are displayed on pages 13 to 19.

[1] This represents the number of names on the Lists of Electors after elector information was confirmed, revised, added and deleted during the August 28 to September 12 door-to-door Enumeration.

[2] This includes the number of names on the Lists of Electors from the Enumeration, with the addition of elector information collected throughout the Revisions Period and on Polling Day, and following the deletion of duplicated, relocated and deceased electors.

[3] The percentage of names of electors on the March 2005 Lists of Electors that were included on the October 2004 Lists. Additional comments on accuracy appear on page 32.

[4] This includes names of 5,135 electors from the National Register of Electors provided by Elections Canada.

2004 PROVINCIAL GENERAL ELECTION

Overview

The election was conducted on the boundaries described in the *Electoral Divisions Act*, which was proclaimed into effect along with the issuance of the writs for the Provincial General Election. Electoral division boundaries had been adjusted following the independent review of the 2002/2003 Alberta Electoral Boundaries Commission and the May 2003 acceptance of the revised electoral division boundaries by the Legislative Assembly. Order in Council 545/2004 proclaimed the new electoral division boundaries in force on October 25, 2004.

Order in Council 544/2004 dissolved the Twenty-fifth Legislative Assembly on October 25, 2004, and Order 546/2004 signalled the commencement of the Provincial General Election by ordering the Chief Electoral Officer to issue Writs of Election to each of the 83 Returning Officers listed on page 69 of this report, pursuant to Section 40 of the *Election Act*.

Challenges

Albertans went to the polls on November 22, 2004 for the third time in six months; our event was preceded by the federal election on June 28, 2004 and the municipal elections on October 18, 2004. Election process varies between events due to the differences in legislation governing each event and this can be confusing to the electorate. It was a particular challenge to effectively communicate to electors that elector eligibility criteria, polling places, voting hours, and voting options varied from the two electoral events preceding the Provincial General Election.

This challenge was compounded by the fact that electors went to the polls on new electoral division boundaries. Electors had become accustomed to the names of provincial electoral divisions that were in place since 1997, or electoral boundary names used during the municipal or federal elections.

Elections Alberta enhanced advertising, Internet presence and expanded the hours of operation for the phone-in Voter Information Centre to address these challenges. The website provided information such as polling place location, electoral division maps, hours of voting at the advance polls and on Polling Day, candidate listings and linkages (where available), and various voting options during over 470,000 site visits. The Voter Information Centre responded to over 16,000 phone-in queries, mainly regarding polling place location and the election process.

Other challenges arose from the administration of the Senate Nominee Election. It was important to notify electors of the event and to provide clear instruction for marking ballots. Unlike the Provincial General Election, electors were able to mark their ballots for up to four candidates.

This challenge extended to the training of election officers who were called upon to answer questions related to the historic event and, later, to count the ballots. Directions were provided verbally by election officers, in written form via the posters in each polling place, and in a multilingual written translation for electors who required that service.

Administering the two parallel events, and particularly tabulating the unofficial results, was a time-consuming process. Unofficial results were not available as quickly as in the past. Although notification of the expected delay was provided by Elections Alberta in advance, the delay in viewing unofficial results frustrated some stakeholders.

Election Training

Returning Officers had selected individuals to assist them with the conduct of the election in advance of the event. Staff appointments were made upon receipt of the Writ of Election.

Each Returning Officer had an election clerk to assist them and to replace them in the event that the Returning Officer was unable to fulfil their duties. A legislative change allowed the recruitment of an additional staff person for the first time: an administrative assistant, whose responsibilities included data entry and Special Ballot poll management. Sixty-four Returning Officers hired an administrative assistant on a full-time basis, while 14 hired an individual part-time and 5 did not hire an administrative assistant.

Elections Alberta provided training to Returning Officers, election clerks and administrative assistants to prepare them to fulfil their duties. They received appropriate resources to provide standardized training to supervisory deputy returning officers, registration officers and deputy returning officers. As in past elections, poll clerks were briefed on their responsibilities by the deputy returning officers and followed the directions provided in the updated "Guide for Polling Place Officials".

Returning Officers used those resources to train 7,270 electors to staff the polls on Polling Day. This demanding task is accomplished by Returning Officers in the latter part of the twenty-eight day election period. As with the enumeration, the election is a very labour-intensive process: 72% of the election budget is allocated to election officers' fees.

Advertising

The maps completed by Returning Officers in March 2004 were used in advertisements and posted at the polling places. Maps had been updated with new civic address data, where available, to ensure currency and accuracy.

In accordance with legislation, maps of each electoral division were advertised in newspapers of general circulation on two occasions during the election period. The first advertisement appeared in the first week of November, and included Election Proclamation information, Returning Officers' office hours and contact information, qualifications for Special Ballot voters, and information regarding the availability of level access in the Returning Officers' offices and advance polling places.

The second advertisement appeared in mid November, and included information on regular, advance and Special Ballot polls, along with the polling place maps.

Both advertisements appeared as inserts in the Edmonton and Calgary daily newspapers. Inserts included information for electoral divisions that shared a boundary with the cities, along with the electoral divisions within the two cities. As an added service, both inserts were hand-delivered to all residences of non-subscribers in Edmonton, Calgary and most urban centres in adjacent electoral divisions to best disseminate information to all electors.

Additional generic advertisements were published throughout the election period to encourage electors to obtain necessary polling day information from the Voter Information Centre or the Elections Alberta website. The advertisements appeared in 9 daily newspapers and 103 weekly newspapers.

Elector Information

Electors had access to information throughout the election period from a number of sources. Information was compiled and made available on a timely basis, given that all activities in the electoral cycle occur following the issuance of the Writs of Election.

Returning Officers secured office space as soon as the Writs were issued, and contact information for them was available early in the election period. Offices were open from 9:00 a.m. to 6:00 p.m. on weekdays and from noon to 4:00 p.m. on Saturdays. Extended hours were offered on key dates of the election period.

All Returning Officers had received furniture and election supplies by day three of the election period; in the interim, they were able to provide prospective candidates with necessary documentation and electors with Special Ballot packages. Returning Officers were able to respond to stakeholders' immediate concerns even though the 80 tonnes of election supplies took three days to deliver across the province.

Locations of polling places were selected after the issuance of the Writs and made available to callers by day five of the election period, both on the website and through telephone contact.

Candidates' nominations closed at 2:00 p.m. on the fourteenth day following the issuance of the Writs, and a listing of candidates for 82 electoral divisions was available on the website later that day. A complete listing of candidates for the electoral division of Bonnyville-Cold Lake was added the following day, following repair of the telecommunications cables which had been severed, cutting off telephone and Internet service to that region.

Elections Alberta's website provided answers to commonly asked questions regarding polling place locations, eligibility criteria and availability of voter assistance. For the first time, electors were able to determine their polling place location following data entry of their civic address or rural legal land description. Electors were also able to confirm their inclusion on the List of Electors after entering the personal information necessary to confirm their identity and prohibit information gathering by unauthorized sources.

The website also included statistical information from previous events, an election calendar highlighting the key dates in the election period, contact information for Returning Officers across the province, and a listing of candidates for each electoral division (with website links, where available).

At the close of polls on Polling Day, electors were able to obtain unofficial results, as that information was entered by Returning Officers. The portion of the website containing poll by poll results, and aggregate results by party, was visited over 112,000 times on Polling Day.

The Voter Information Centre handled over 16,000 calls throughout the election period, including 6,327 on Polling Day. Operators were available 8:00 a.m. to 9:00 p.m. on weekdays, and 9:00 a.m. to 4:00 p.m. on weekends. Operators answered general inquiries and directed electors to their polling places.

Electors who were unable to obtain the information they required from the Returning Officer, Voter Information Centre or website were able to contact Elections Alberta by email. Email queries were answered on a timely basis, particularly the 447 where-to-vote queries received on Polling Day.

This combination of resources was designed to accommodate electors round-the-clock. Electors have, in past, expressed their concern that providing information during regular business hours does not always accommodate their schedules. The increased hours of operation and means for providing information have been adopted to address that concern.

Legislative and Procedural Changes

A comprehensive review of the *Election Act* resulted in almost 200 changes that were in effect for the 2004 electoral events. Many revisions were made to clarify or update the legislation, or to allow for increased administrative efficiencies. Others were to enhance the front-line service provided to electors.

The following are highlights of some of the changes to the *Election Act*:

Access to publicly held elector information, on a cost recovery basis, was expanded to allow Elections Alberta to economically update the Register of Electors using data held by public agencies.

Enumerators were able to contact electors by telephone, where distances were a consideration, and to accept elector information provided by telephone.

Access to multiple dwelling sites (including apartments and condominiums) was clarified to facilitate entry by enumerators and campaign workers. Returning Officers provided identification to enumerators and campaign workers to assist in this regard.

Advance poll eligibility has been expanded to accommodate electors who believe they will be unable to vote on Polling Day.

Two new election officer positions were available: administrative assistants, within the offices of the Returning Officers; and registration officers, within polling places holding multiple polling stations. Both positions were instituted to improve service to electors, the latter by streamlining the process of adding electors to the Lists of Electors on Polling Day.

Poll Books were revised to include the List of Electors. This streamlined the voting process for electors whose names were included in the Register of Electors.

Election officers were able to provide cover-off of any position within a polling place to avoid disruptions in service due to sudden absence or illness. Polling stations could be opened with only one election officer in attendance, if necessary, to avoid possible delays.

Electors who are unable to vote in the usual manner due to a physical incapacity or inability to read the ballot have expanded options available to them. In addition to receiving assistance from election officers, they may be assisted by a friend who has accompanied them. An elector may also enlist a friend to provide translation services.

Nominated Candidates

Nomination day was Monday, November 8, 2004. That was the last day on which prospective candidates were able to file nomination papers with the Returning Officer in the electoral division in which they wished to contest the election.

By 2:00 p.m., when nominations closed, 450 candidates had filed nomination papers. This represented the greatest number of candidates to contest a provincial election in Alberta's history. The distribution of candidates by political party affiliation follows:

Alberta Alliance	83
Alberta Greens	49
Alberta Liberal Party	82
Alberta New Democratic Party	83
Alberta Party	4
Communist Party – Alberta	2
Progressive Conservative Association of Alberta	83
Separation Party of Alberta	12
Social Credit	42
Independent	10

No candidate withdrew following the close of nominations and no candidate was elected by acclamation.

Special Ballot Polls

By legislation, a Special Ballot poll was established in each of the 83 electoral divisions. The poll is established to facilitate voting for electors who are not able to vote at the advance polls, or on Polling Day. It is often used by electors who are physically incapacitated or who travel, work or attend an educational institution outside of their own electoral divisions for extended periods. Availability of the Special Ballot was advertised in newspapers and on the website.

Special Ballot brochures were distributed to stakeholder groups whose members tend to use this voting option. Brochures were distributed on a proactive basis to trade unions, travel clubs, post-secondary educational institutions and the Canadian Armed Forces to allow them time to share information with their membership. This increased awareness directed electors' early attention to this voting option.

The Special Ballot is often viewed as a mail-in ballot, but ballots may also be completed in the Returning Officer's office or hand-delivered by an individual at the elector's request. While every effort is made to provide a Special Ballot to an elector, it is a legislative requirement that an elector must request his or her own Special Ballot: it cannot be requested on his or her behalf by another person. This is to ensure that the Special Ballot is issued to, and completed by, the appropriate elector.

Electors may request a Special Ballot in person, by telephone, by facsimile, by electronic mail or in writing. The Special Ballot package uses a series of envelopes to protect the confidentiality of the ballot, and contains an elector's declaration identifying the reason for use, along with an undertaking confirming that the elector has not yet voted and will not vote a second time.

In the same way that each elector must vote within their own electoral division, each elector must request a Special Ballot from the Returning Officer in his or her own electoral division and return it to the office from which it was issued. Although Special Ballot requests may be made electronically, original Special Ballots must be submitted to ensure authenticity and confidentiality.

Returning Officers sent Special Ballots throughout the province and even out of the country. Completed Special Ballot envelopes returned from Europe and Asia were commonplace. Electors were able to request a Special Ballot at the beginning of the election period and were able to vote for the candidate or political party of their choice. This helped to ensure that electors had adequate time to complete and return the Special Ballot by the close of polls on Polling Day.

A total of 7,358 valid Special Ballots were received by the close of polls on Polling Day, providing a valuable option to electors who otherwise may have been unable to exercise their franchise.

Advance Polls

By legislation, advance polls were established in at least one location in each electoral division on the Thursday, Friday and Saturday prior to Polling Day. Up to four advance poll locations may be established to ensure elector convenience in electoral divisions that cover a large geographic area; additional locations may be established, if deemed necessary by the Chief Electoral Officer.

Advance polls were open from 9:00 a.m. to 8:00 p.m. on November 18, 19 and 20, 2004, at sites that offered level access. Returning Officers' offices were used, where appropriate.

These polls were established to accommodate electors who were unable to vote on Polling Day due to:

- physical incapacity,
- absence,
- acting as an election officer, candidate, official agent or scrutineer whose official duties precluded their attendance at the polling place established for their own polling subdivision, or
- an inability to vote on Polling Day.

A total of 44,807 valid ballots were cast at 165 advance polls.

Mobile Polls

By legislation, mobile polls were established on Polling Day in treatment centres and in supportive living facilities with ten or more resident inpatients or electors, where consultation with facility staff found the service to be appropriate.

Mobile poll brochures were distributed to facility administrators early in the election period to inform them of the mobile poll process. Posters were provided to inform residents of the time and location for mobile polling within their facility to allow electors to plan appropriately for Polling Day.

Mobile polls accommodated electors within the facilities during hours agreed upon by facility staff, and were conducted in a fixed location, or by going bed-to-bed, or by using both methods, to best meet electors' needs.

All electors identified by the facility staff as being well enough to vote are eligible to vote in the electoral division in which the facility is located. In accordance with legislation, facility staff can restrict participation to the deputy returning officer, poll clerk, interpreter, and facility representative, if appropriate for the well-being of the residents or inpatients.

A total of 17,639 valid ballots were cast at 477 mobile poll locations.

Polling Day

By legislation, polls were open from 9:00 a.m. to 8:00 p.m. on Monday, November 22, 2004. There were 5,357 polling stations established across the province, each staffed by a deputy returning officer and poll clerk. Supervisory deputy returning officers were hired in polling places with multiple stations to assist in directing electors to the correct polling station. Registration officers were hired to assist electors whose names were not on the Lists of Electors, which expedited the process for all electors.

Election officers were responsible for setting up the polling places, taking the vote, swearing-in electors, conducting the unofficial count and returning all election material to the Returning Officers in a secure manner.

Election officers were also responsible for answering electors' inquiries and for working with the scrutineers appointed by candidates to observe Polling Day proceedings. Both election officers and scrutineers are to be commended for their cooperative efforts in ensuring fairness and transparency in the process.

The role of election officers also includes the collection of information that will be used in updating the Register of Electors. Polling Day is an excellent opportunity to collect new and updated information from electors for use in refreshing the Register and subsequent Lists of Electors.

At the close of polls, election officers conducted the unofficial count for the Provincial General Election and the Senate Nominee Election, and telephoned results to the appropriate Returning Officer. All results were communicated in a timely manner and were made available in Returning Officers' offices. For the first time, staff in Returning Officers' offices data entered the unofficial results as they arrived and posted that information to the website. Interested parties were able to view poll-by-poll results, as well as results aggregated for the entire province, as they were posted. The information systems capability will be enhanced prior to the next electoral event in order to expedite the web-posting of unofficial results.

Additions to the List of Electors

A total of 70,037 electors were added to the Lists of Electors during the Revisions Period and on Polling Day. This figure includes electors who did not provide information during the enumeration, those who moved, and those who attained the age, residency or citizenship requirements following the enumeration.

On average, 13 electors were sworn in at each regular polling station. Areas of high mobility or significant recent growth experienced the highest number of additions.

The Register of Electors contained 1,931,250 names following the Provincial General Enumeration. Names in the Register were used to create the Lists of Electors provided to registered political parties in October 2004 to meet the legislated requirement for providing a List of Electors in the fourth year following an election.

The number of names in the Register of Electors increased to 2,001,287 by the close of polls on Polling Day for the November 22, 2004 Provincial General Election. Names added during the Revisions Period and on Polling Day were included at that point.

By March 2005, the Register of Electors contained 1,982,843 names. Electors' names had been removed from previous addresses and at electors' requests following out-of-province moves. This final tally is also partially attributable to the number of electors who withheld consent for participation in the Register of Electors.

In order to receive a ballot, an elector's name must appear on the List of Electors. It is not mandatory, however, to participate in the Register of Electors. Electors were encouraged to participate to increase the accuracy of future Lists and to reduce the number of electors having to swear-in to vote at the next electoral event. Still, some electors prefer not to have their names included in the Register on an ongoing basis, in spite of the fact that their information is used for electoral purposes only.

Opting out of the Register is one of the reasons that a certain number of Polling Day swear-ins must be anticipated at all electoral events. The addition of the registration officer on Polling Day helps to ensure that these electors are added to the List of Electors without delaying those electors who expect a streamlined voting process subsequent to their provision of Register information prior to Polling Day.

Accuracy of the Lists of Electors

Accurate, current Lists of Electors are essential both for campaigning and effective Polling Day administration. The Lists of Electors distributed to registered political parties in October 2004, and subsequently used at the polls, were compared to the post-election Lists produced in March 2005 to gauge accuracy.

It is recognized that an indeterminate number of eligible electors actively choose not to participate in the electoral process, so it is acknowledged that the List of Electors does not contain every eligible elector. At the same time, a benchmark must be established to gauge accuracy. For that reason, the assumption is made that the post-election Lists of Electors are one hundred per cent accurate, since they include all electors who choose to provide information during the enumeration, the Revisions Period or on Polling Day.

Table 3 on page 15 illustrates the accuracy of the Lists of Electors prepared following the enumeration in comparison to the post-election Lists. Overall, the Lists were found to be 97.4% accurate. Only 2.6% of electors that appeared on the March 2005 Lists of Electors were added during the Revisions Period and on Polling Day.

Official Results

The official results were announced by each of the 83 Returning Officers on Thursday, December 2, 2004.

No controverted election petition was filed for the election.

Judicial Recount

One judicial recount was requested, pursuant to Section 144 of the *Election Act*. The unofficial count conducted on Polling Day in the electoral division of Edmonton-Castle Downs showed a five vote margin of victory for the Alberta Liberal Party candidate over the second place candidate, representing the Progressive Conservative Association of Alberta.

Returning Officers in all electoral divisions are required to perform an official count of ballots. This began on Tuesday, November 23 in Edmonton-Castle Downs. The two leading candidates were present, or had representatives present, throughout the official count. The official results announced by the Returning Officer on December 2 reduced the margin of victory for the Alberta Liberal Candidate to three votes.

The Returning Officer's decision was appealed by the Progressive Conservative candidate, and a judicial recount of certain disputed ballots was conducted. The Order filed in the Court of Queen's Bench on December 9 confirmed a three vote margin of victory for the Liberal candidate, although the assessment of certain ballots varied from that of the Returning Officer.

The Progressive Conservative candidate appealed the decision of the judicial recount to the Court of Appeal. The Court of Appeal deemed ten ballots as valid which had been disallowed previously: eight for the Progressive Conservative candidate, and two for the Liberal candidate. *Lukaszuk v. Kibermanis, 2005 ABCA 26* cites, in part:

> *Voting is the lifeblood of democracy and courts should be very slow to disenfranchise voters on the basis of a technical non-compliance with voting instructions. Restrictions on this right should be narrowly interpreted and strictly limited. This is particularly true in our pluralistic and multi-cultural society where citizens enjoy differing levels of education, language comprehension and physical dexterity. Therefore, in a conflict between principle and technicality, principle must govern.*

The judgment is available at www.albertacourts.ab.ca

As a result of the decision, the Progressive Conservative candidate was declared elected by three votes.

Custody and Inspection of Election Documents

Polling Day documentation for 82 electoral divisions was returned to Elections Alberta following the announcement of the Official Results, in accordance with Section 142 of the *Election Act*. In accordance with that Section, Polling Day documentation for Edmonton-Castle Downs was retained by the Returning Officer until the conclusion of the judicial recount.

Section 152 authorizes candidates and their official agents to review all Polling Day documentation for their electoral division, with the exception of the ballots, in the thirty-day period following the publication of the names of elected Members of the Legislative Assembly in the Alberta Gazette. Seven candidates and official agents availed themselves of this opportunity.

During this same time period, candidates and their official agents are entitled to obtain copies of the Poll Books used at the election. Thirty-eight candidates and official agents requested copies on a cost-recovery basis.

Continuous Register of Electors Management

Elector information collected throughout the election period and on Polling Day was incorporated into the Register of Electors, where permission was granted by the elector, for preparation of future Lists of Electors.

Lists were updated following the election and distributed to registered political parties and Members of the Legislative Assembly under Section 19(2) of the *Election Act*. Restrictions for use are contained at Section 20, to ensure elector information is used appropriately. Penalties for misuse include fines up to $100,000, or a term of imprisonment up to one year, or both. Lists were provided in an electronic format to facilitate use by recipients and to promote security through the use of passwords.

Section 18 directs that both registered political parties and Independent Members of the Legislative Assembly receive updated Lists on a regular basis. Updated Lists must be provided immediately after the election, two years after the election, during the fourth and fifth years following the election, and following any updates made to the Register subsequent to electoral division boundary revisions.

With any large database, it is a major challenge to compare and correct entries against other data sets. It is particularly challenging when some entries cannot be matched conclusively because of incomplete information. This is particularly difficult in the case of common names where birth date and previous address information is unavailable.

Maintaining the accuracy and currency of Lists of Electors will become an increasing priority at Elections Alberta. Possible data sources are being reviewed for use in updating Register information on an ongoing basis. Recent legislative amendments will support the economical acquisition of accurate, timely data held by public agencies. Data collection will continue to reconcile the need for updated information with the electors' rights to privacy.

Candidates' Deposits

The candidate's nomination deposit prescribed by legislation increased from $200 for the 2001 Provincial General Election to $500 for this event. The increase is not as substantial as it appears due to the refund policy. All candidates who win or who receive half the votes of the winning candidate receive half of the deposit back. In addition, those who file candidate campaign financial statements within the prescribed period receive half of the deposit back.

In accordance with Section 62 of the *Election Act*, 130 candidates received a refund of half the amount of their candidate nomination deposits for receiving the most votes, or at least fifty per cent of the votes received by the winning candidate.

In addition, 435 candidates received a refund of half the amount of their candidate nomination deposits by filing a financial statement within the legislated timeline.

A breakdown follows:

	Number nominated	**Number received refund based on votes received**	**Number received refund for timely filing**
Alberta Alliance	83	2	74
Alberta Greens	49	0	47
Alberta Liberal Party	82	43	82
Alberta New Democratic Party	83	7	82
Alberta Party	4	0	4
Communist Party – Alberta	2	0	2
Progressive Conservative Association of Alberta	83	78	83
Separation Party of Alberta	12	0	11
Social Credit	42	0	41
Independent	10	0	9

In total, $83,750 was forfeited and was paid through Elections Alberta to the Minister of Finance for deposit to the General Revenue Fund.

The maximum polling place rental referred to in subsection 10(1)(a) may be adjusted only in extraordinary circumstances with written approval of the Chief Electoral Officer.

If, in the opinion of the Chief Electoral Officer, an emergency exists, or circumstances for which no adequate provision of fees exists, the Chief Electoral Officer may fix the appropriate fee for the situation.

Election Finances and Contributions Disclosure Act

The *Election Finances and Contributions Disclosure Act* requires all political parties, constituency associations and candidates to be registered with the Office of the Chief Electoral Officer.

The *Act* provides for the public disclosure of contributions and expenses.

Candidate Registration

Until a candidate has been registered with the Office of the Chief Electoral Officer, the candidate may not raise or spend money to help get elected.

Any person, corporation, trade union or employee organization may contribute up to a maximum of $2,000 to each candidate during the campaign period. The campaign period commences on the date the candidate is registered with the Office of the Chief Electoral Officer, following the issue of the Writ of Election, and continues for a period not exceeding two months after polling day.

The *Alberta Income Tax Act* provides a system of tax credits for contributions to registered political parties, registered constituency associations and registered candidates.

Example of Income Tax Credits

Amount Contributed	Calculation	Income Tax Credit
$ 200.00	75% of $200.00	$ 150.00
1,100.00	$150.00 + 50% of $900.00	600.00
2,300.00	$600.00 + 33 1/3% of $1,200.00	1,000.00

Candidate's Campaign Period Financial Statements

These statements were required to be filed by all candidates by March 22, 2005. Details of expenses incurred by each candidate will be published on the website of the Chief Electoral Officer. Political parties filed Political Party Campaign Period Financial Statements on or before May 24, 2005. Copies of all financial statements are placed on the Public Files maintained by this Office and are available for examination during normal office hours. The Twenty-eighth Annual Report of the Chief Electoral Officer will provide details on all campaign period financial statements filed in 2005.

Senate Nominee Election Highlights

On November 22, 2004, an election under the *Senatorial Selection Act* was conducted in conjunction with a Provincial General Election for the first time. Names of ten candidates appeared on the ballot, from which Albertans were asked to elect four Senate Nominees. A summary of the provincial tabulation of official results appears below. Additional details will be made available in "The Report of the Chief Electoral Officer on the 2004 Senate Nominee Election".

Cliff Breitkreuz, Progressive Conservative Party	241,306
Bert Brown, Progressive Conservative Party	312,041
Link Byfield, Independent	238,751
Vance Gough, Alberta Alliance	167,770
Gary Horan, Alberta Alliance	156,175
Michael Roth, Alberta Alliance	176,339
Jim Silye, Progressive Conservative Party	217,857
Tom Sindlinger, Independent	161,082
Betty Unger, Progressive Conservative Party	311,964
David Usherwood, Progressive Conservative Party	193,056

Names of the four Senate Nominees elected appear in bold type.

Remarks of the Chief Electoral Officer

The period covered by this Report has been a challenging and exciting time. Elections Alberta provided administrative support to the 2002/2003 Alberta Electoral Boundaries Commission and saw the new boundaries accepted by the Legislative Assembly in May 2003. This Office administered the recent enumeration and election on new electoral division boundaries in accordance with new legislation following the review and revision of the *Election Act*.

Once again, our success was achieved with the cooperation of electors across the province. Enumerators visited approximately one million homes to collect information for updating the Lists of Electors, and Polling Day staff used those Lists to serve electors on Polling Day. Behind the scenes, Returning Officers capably managed activities in their electoral divisions, including a map review and revision, enumeration supervision and conduct of the election. Those tasks are easily itemized but extremely challenging to accomplish: Returning Officers work many hours, in an increasingly complex environment, to provide this service to electors.

Albertans were able to choose from a record number of 450 candidates who contested the past election. Many other individuals worked behind the scenes to support those candidates. Members of constituency associations and political parties are active on an ongoing basis. Official agents, chief financial officers, scrutineers and many other campaign staff work diligently to support the candidates, engage the electorate and promote the democratic process in the province.

While most electors view the voting process as a simple one that involves visiting a polling place and marking the ballot, there are literally thousands of unsung heroes who make that activity possible and meaningful. Their efforts are greatly appreciated.

The past electoral cycle allowed us the opportunity to expand our outreach to stakeholders by offering new informational brochures, enhancing our customer service provided by telephone and electronic mail, and increasing interactive information provision via the website. These activities support our commitment to meeting electors' demands for information provision over extended hours and through various means.

While information provision continues to be enhanced and voting options are numerous, the voter turnout has declined for the past three general elections, since 1993 when the turn-out was 60.2%. Interested parties have expressed concern over the voter turnout and Elections Alberta is working hard to ensure that declining voter turnout is not attributable to administrative barriers.

Elections Alberta also works diligently to disseminate accurate information as broadly as possible to allay concerns of possible irregularities on a proactive basis. During each event, Elections Alberta receives concerns about the voting process: in a number of cases, stakeholders assume that activities which concern them must contravene electoral law. In the vast majority of these situations, it is immediately evident that the activities do not constitute an offence under the *Election Act*.

These concerns included a limited number of allegations that, if proven, could potentially have constituted a breach of electoral law. It is always greatly appreciated that these concerns are brought to the attention of this Office so they can be reviewed in a timely fashion and investigated, if appropriate. Allegations are taken very seriously and are investigated in those circumstances where a possible breach of legislation exists and a sufficient level of detail permits.

The electoral process itself is conducive to fairness and transparency. Electors are greeted at their local polling station by Polling Day staff from the same area. Similarly, scrutineers are appointed from within the electoral division. These individuals bring a wealth of community knowledge to their responsibilities and are uniquely positioned to identify possible instances of elector fraud. Both Polling Day staff and scrutineers may request an elector to complete an Oath of Elector, and produce identification, if they believe in good faith that the elector should not be voting at the polling place. This provides a valuable safeguard to verifying elector eligibility for all electors, not just the three per cent who are added to the List on Polling Day.

Having said that, it would be possible to make the rules surrounding voting far more stringent. Each elector could be asked to provide picture identification along with proof of Canadian citizenship, six month residency, age and current address; whether on the List of Electors or not. Electors could be required to produce a voter card or be excluded from casting a ballot. This approach could serve to disenfranchise electors who are not typically prepared for this level of scrutiny and who may not be prepared even with a massive public education campaign. The current honour-based system has served us well; incorporating, as it does, the means for verifying elector eligibility. Facilitating a fair and transparent system, without onerous administrative regulations, is essential.

I have been involved with this Office for the past three decades and take great pride in Alberta's electoral system. There are always areas for improvement, whether in service delivery, application of new technologies or distribution of information. Still, the basic principles of trust, integrity and fairness are core values within our system, which warrant our respect and protection.

O. Brian Fjeldheim

Statements of Official Results

The following poll-by-poll results have been taken directly from the Statements of Official Results completed by Returning Officers in the 83 electoral divisions across the province.

The maps shown are those described by the *Electoral Divisions Act*. The polling subdivision numbers refer to geographical areas identified on each of the maps.

Poll-by-poll results include the number of valid ballots cast for each candidate, along with the number of spoiled, declined and rejected ballots.

- Valid ballots are those that are clearly marked for one candidate in accordance with Section 111 of the *Election Act*.
- Rejected ballots are those not counted because the elector's intent was unclear, or because no candidates or more than one candidate was selected, or because readily identifying marks were added.
- A spoiled ballot is one that was marked incorrectly by an elector, who then obtained a replacement ballot from the deputy returning officer. Spoiled ballots are not placed in the ballot box for counting.
- A declined ballot is one that was returned by an elector, who chose not to vote for any candidate listed on the ballot.

Poll-by-poll results display the number of eligible electors, including all electors who were on the October 2004 List of Electors, those who were added during the Revisions Period, and those who were added by swearing-in on Polling Day. The percentage of voter turnout is calculated based on the total number of eligible electors at the close of polls on Polling Day.

Maps are available in electronic format at www.electionsalberta.ab.ca
